Nancy, before I embark on this new project (and I'm not even sure if I'll be staffed on it) can you provide me a few more details about the application and the proposed timeline for the processing of it?

Thanks,

Alexa

Hi Alexa, (Rescheduled because David's not in Monday.)

I would like to get ORC input on NHPA and ESA for a commercial scale in situ copper recovery Project. Please see draft letter for background. ESA would be an informal consultation. Let me know if you would like more information (i.e., location figure, surveys, or biological assessment) to review before our meeting. Thanks, Nancy
